

Young People's Survey Dec 2021

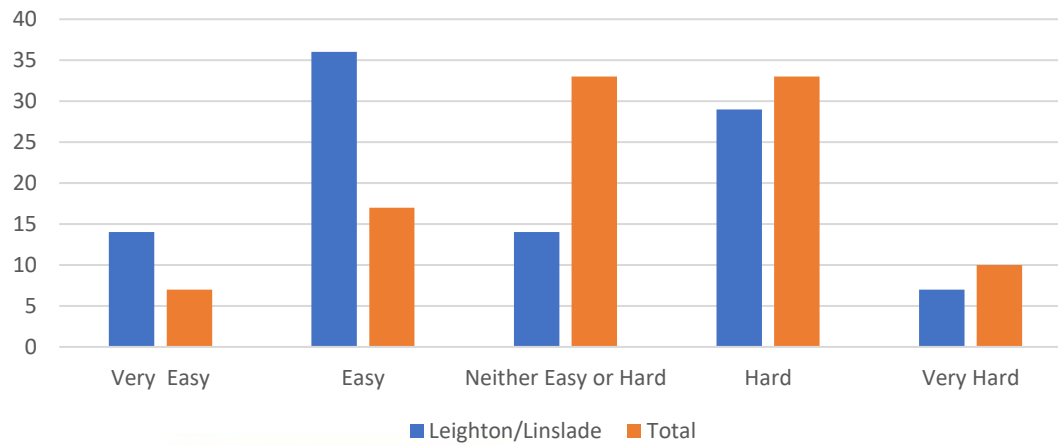

- Youth People's Survey was conducted in the Autumn of 2021
- This consultation is part of the Youth Offer project to find out how young people would like to access information on activities and support and to identify any potential barriers
- 206 young people (age 12 to 18) responded across Central Bedfordshire
- 14 young people (age 13 to 18) responded from Leighton Buzzard

Results

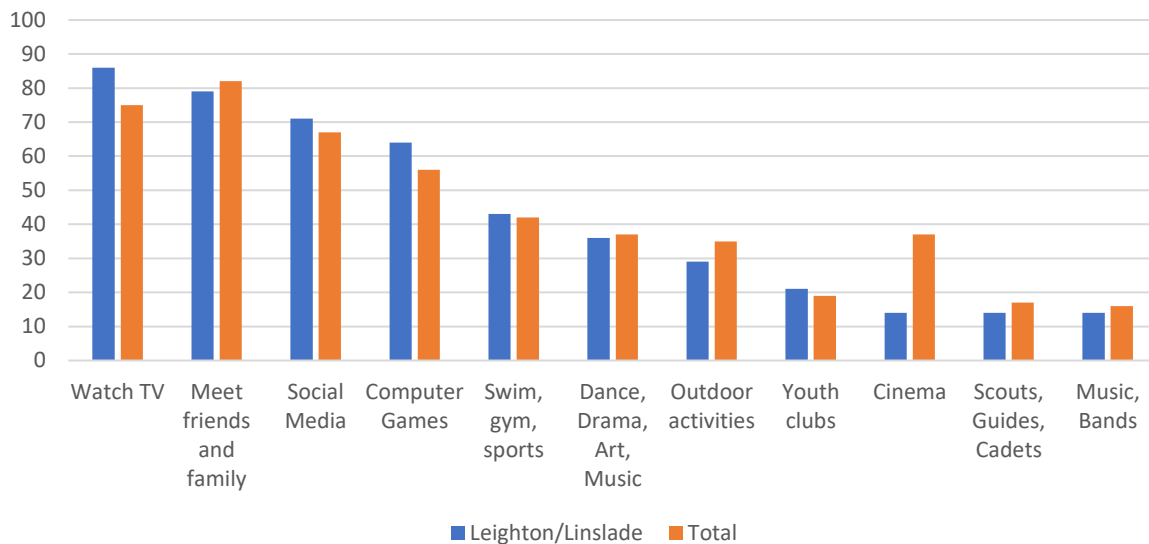

How easy or hard is it for you to find out about activities for young people

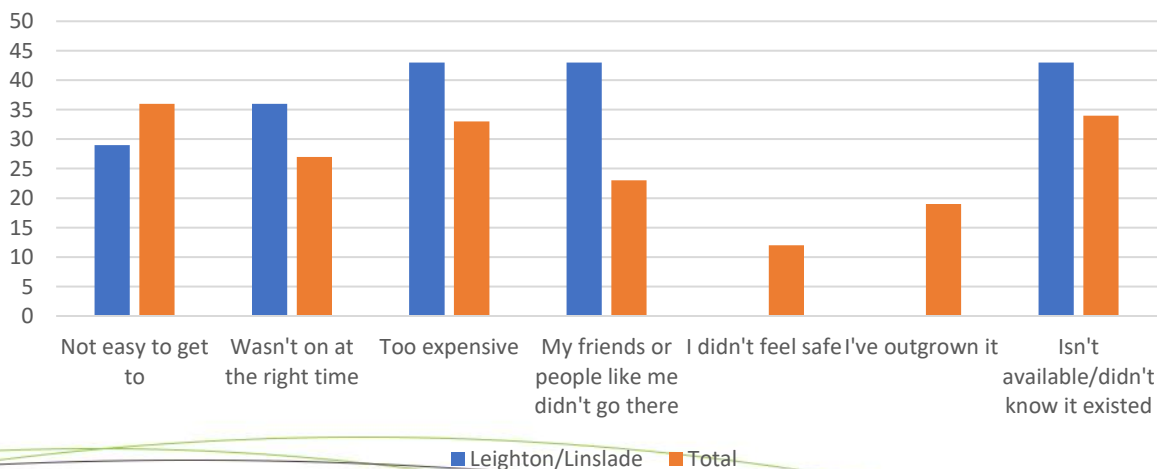

How easy or hard is it for you to find out about support for young people

What activities do you currently take part in

What stops you from taking part in activities

Where do you get your information on Sexual Health

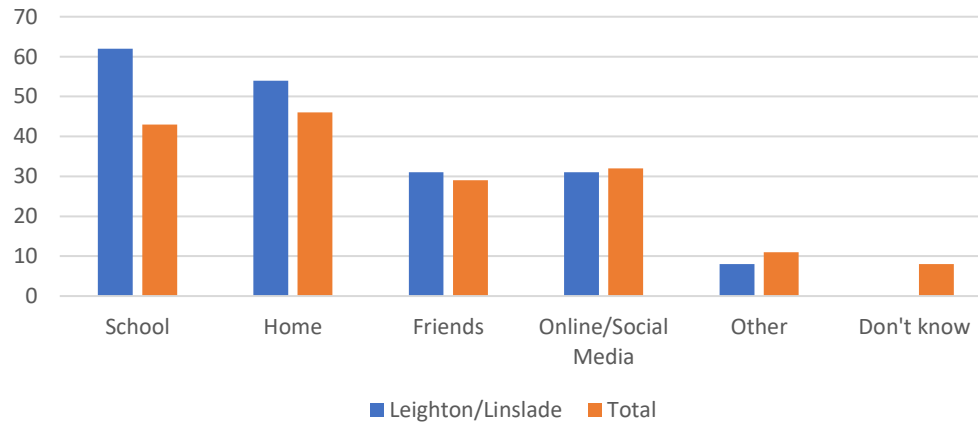

Where do you get your information on Mental Health

Where do you get your information on Personal Safety

Where do you get your information on Well Being?

Where do you get your information on Employment/Careers/Training

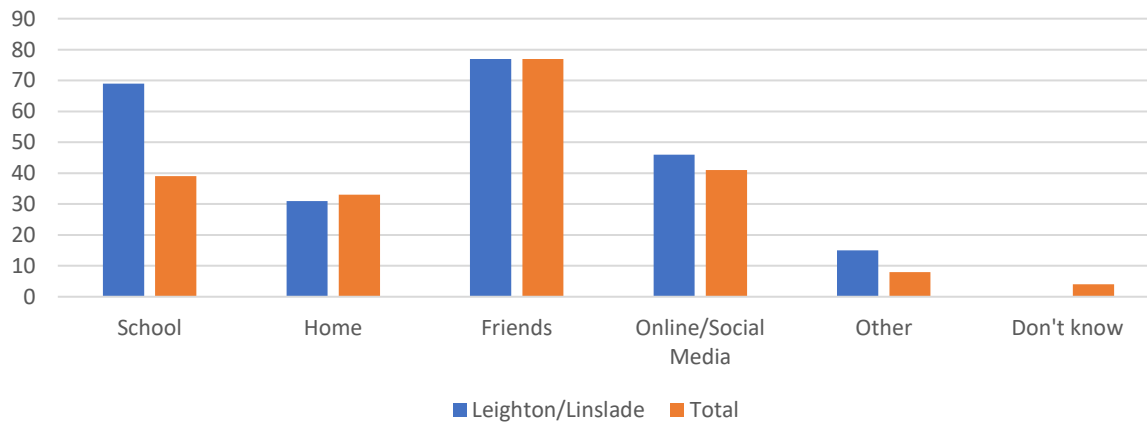

Where do you get your information on Housing

Where do you get information from on Youth Clubs

Where do you get information from on Socialising

Where do you get your information on Physical/Sports

Where to you get your information on Arts/Music

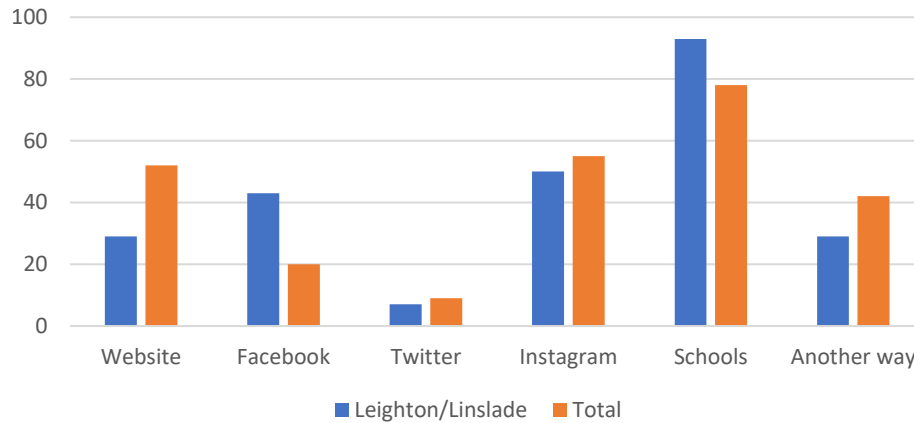

Have you been able to find support service if you needed them

How do you prefer to access support services

How do you like to hear about activities and information

Key Messages

We need further engagement with young people to get a comprehensive picture. However, from this snapshot:

- Young people across the county do not find it easy to find out about all the activities and services on offer
- Young People are telling us they would like to receive information through school but also be able to access information online
- Young People want a choice of physical and virtual services
- Its important to young people that they are be able to spend time socially with friends and their peers.
- Sports, Arts and Gaming are popular activities
- Access to mental health support is in high demand

Next Steps

- Sharing findings with partners and commissioned providers – to discuss any developments within current resources and/or opportunities through grant funding that we may be able to capitalise on
- Young researchers to enrich the information
- Business case for resource to develop a virtual youth hub – ie a portal approach to ensure there is easy access
